# Digital badges and credentials

We work with Accredible to issue digital badges and certificates for short course students. Digital badges are a great way to celebrate your achievements and stand out from the crowd.

Digital badges document an accomplishment or skill that can be displayed, accessed and verified online.

Each digital badge contains unique metadata relating to the course studied. This can include skills acquired, topics covered and hours studied during the course. Badges can be shared in digital portfolios, used on CVs and added to social media profiles such as LinkedIn. They also make a great addition to university applications and are supported by the UCAS platform.
