CAREER Insights

Two weeks exploring a career from the inside. You'll be taught by an industry expert, with off-campus industry visits to see your chosen field in action. Perfect if you're exploring a career, not just a subject. An afternoon in a studio, a courtroom, or a trading floor will will give you a real insight into what different jobs in the industry entail.

TED Summer School

A transformative two-week summer experience built in partnership with TED for motivated students aged 15-18, built around the art of communication, storytelling, and public speaking.

Through a blend of theory and practice, small-group collaboration, and 1:1 coaching, participants learn to shape powerful ideas and deliver them with clarity, confidence, and presence. The experience culminates in each student presenting their own TED-style talk to a live audience, captured on video.
